EXPERIENCE

Product Designer

Federal Reserve Bank of Minneapolis // Mar 2021 - Present

Lead User Experience Designer

Reuters // Sep 2020 - Mar 2021

As a Lead User Experience Designer for Reuters I have had the opportunity to be a key contributor to the design vision of the new Reuters.com and to build and grow the design team. This role has been a great opportunity to take all my years of experience and build up a strong foundation of design systems, accessibility, process and collaboration across divisions to set the team up for success and be able to deliver the best experience to our readers.

Senior User Experience Designer

Thomson Reuters // Sep 2017 - Sep 2020

On the Legal UX Team at Thomson Reuters I primarily worked on productivity software for attorneys. This role continued to expand my skills and interest in design systems, accessibility and agile software development. My most notable contribution to this team was getting to be a lead voice in building a company wide design system and collaborating with our lead engineer to build a scalable enterprise system using design tokens.
